JX Metals Corporation Earns Intel's 2024 EPIC Distinguished Supplier Award

JX Metals Corporation is one of only 27 Distinguished Award recipients across Intel's global supply chain.

JX Metals Corporation (President: Hayashi Yoichi) is proud to announce that it has earned Intel's EPIC Distinguished Supplier Award. Through its dedication to Excellence, Partnership, Inclusion, and Continuous (EPIC) quality improvement, JX Metals Corporation has achieved a level of performance that consistently exceeds Intel's expectations.

“As one of the 27 Distinguished Supplier Award in 2024, JX Metals Corporation stands out among suppliers in Intel's trusted supply chain,” said Keyvan Esfarjani, chief global operations officer at Intel. “Through their relentless drive to improve, they have achieved a level of performance that consistently exceeds Intel's expectations and serves as a benchmark across the ecosystem.”

The Intel EPIC Distinguished Supplier Award recognizes a consistent level of strong performance across all performance criteria. Of the thousands of Intel suppliers around the world, only a few hundred qualify to participate in the EPIC Supplier Program. The EPIC Distinguished Award is the second-highest honor a supplier can achieve. In 2024, only 27 suppliers in the Intel supply chain network earned this award.

To qualify for an Intel EPIC Distinguished Supplier Award, suppliers must exceed expectations, meet aggressive performance goals, and score 80 percent or higher in performance assessments throughout the year. Suppliers must also meet 80 percent or more of their improvement plan deliverables and demonstrate formidable quality and business systems.
